## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 18, 2008 has been entered.

### ***Response to Amendment***

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn. In response to the Amendment received on September 19, 2008, the examiner has carefully considered the amendments

### ***Response to Arguments***

3. Applicant's arguments, see Remarks/Amendment, filed September 18, 2008, with respect to claims 9, 13-15 and 18-22 have been fully considered and are persuasive. The rejection of claims 9, 13-15, and 18-19 under 35 USC 102(b) as anticipated by or, in the alternative, under 35 USC 103(a) as obvious over Milligan (US 3,412,054) has been withdrawn. Milligan fails to anticipate or render obvious the claims as instantly written. Milligan fails to teach an isocyanate-terminated, polyurethane containing prepolymer as defined in instant claim 9 having an isocyanate content of from 0.5 to 35% by weight. Milligan teaches reacting all hydroxyl groups of the functionalized oil with all NCO groups of the polyfunctional and not polymeric isocyanate compounds. Thus, the method of making a dispersion of a polyurethane particles as found in instant claim 18 is not rendered anticipated or obvious by the teachings of Milligan either. Therefore it is deemed the instant invention is distinguished from the teachings Milligan.

Art Unit: 1796

4. The rejection of claims 9 and 13 under 35 USC 103(a) as being unpatentable over Seiner (US 3,318,828) in view of Gauerke (1,979,260) has been withdrawn. The primary reference Seiner fails to teach an isocyanate-terminated, polyurethane containing prepolymer as defined in instant claim 9 having an isocyanate content of from 0.5 to 35% by weight. Seiner teaches reacting free NCO groups of the polyfunctional not polymeric/oligomeric isocyanate with water to extend the shelf life of the isocyanate compound by reacting all residual isocyanates with water. Secondary reference Gauerke fails to remedy the deficiencies of Seiner. Thus, the method of making a dispersion of polyurethane particles as found in instant claim 18 is not rendered anticipated or obvious by the teachings of Seiner or the combination of Seiner with Gauerke, either. Therefore it is deemed the instant invention is distinguished from the combined teachings Seiner with Gauerke.

***Allowable Subject Matter***

5. Claims 9, 13-15 and 18-22 are allowed.

6. The following is an examiner's statement of reasons for allowance: The prior art, alone or in combination, fails to teach an isocyanate terminated polyurethane group containing prepolymer having an isocyanate content of 0.5 to 35% by weight as well as containing the other defined groups, wherein the prepolymer is a reaction product of a functionalized tung oil having at least two free hydroxyl groups with a polyisocyanate compound, wherein said functionalized tung oil is the reaction product obtained from tung oil with a polyol having at least 3 primary hydroxyl groups and a melting temperature of 220 °C or below. Nor does the prior art teach making a dispersion of polyurethane particles from the above defined pre-polymer as found in claim 18. Additionally, the prior art is silent with regard to adhesive composition comprising the above defined polyurethane particles, as well as, adhesives found in claims 20-22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
